

Creating an Advocacy Form

Whether for an alert or an evergreen policy action on your website, advocacy forms are what we use to ask people to write directly to their representatives.

Part 1: Contact Liz Pomper

To create advocacy forms, you will need special training and context from Liz Pomper, Audubon's Director of Online Outreach. Please contact her if you believe your job should involve creating advocacy forms.

In the meantime, if you'd like to review the process, please refer to this document:
